 In the Two-factor authentication, select Facebook, you will be required to enter your password. It will ask how you would like to get your login code. An Authentication app is the recommended method (Duo mobile, Google Authenticator) and is more secure than text message. This prevents others from logging into your account or impersonating you.

This lets you enhance your security by controlling who can log into your account with your user/password, should it be stolen.

SECURITY CHECKS

Security checks

Review security issues by running checks across apps, devices and emails sent.

Where you're logged in	>
Login alerts	>
Recent emails	>
Security Checkup	>

- See where you are logged in log out of any devices you don't recognize.
- Get login alert notifications when someone tries to log into your account.
- See recent emails sent to you about security events.
- Run a security checkup on your account to see if you are following good security.

Go to **Settings** then to the **Audience and visibility** tab and click **Followers and public content.**

Edit the settings to match the picture on the left - this will prevent from unwanted users from finding and following you. This will disallow them from viewing or commenting on your public posts.

OFF-FACEBOOK ACTIVITY

facebook

Off-Facebook activity includes information that businesses and organizations share with us about your Interactions with them, such as visiting their apps or websites.

Turning this off will limit the number of custom ads you see based on any connected accounts to your Facebook profile.

This limits organizations from sharing information about you.

FRIENDS LIST

Go to **Settings,** then **Audience and visibility** and click **How people find and contact you.**

Edit the settings to match the picture on the right - this will prevent from unwanted users from finding and contacting you. This will also prevent them from seeing your friends or viewing your personal information.

K How people find and contact you	
Who can send you friend requests? Friends of friends	>
Who can see your friends list? Friends	>
Who can look you up using the email address you provided? Friends	>
Who can look you up using the phone number you provided? Only me	>
Do you want search engines outside of Facebook to link to your profile? No	>
